ABOUT THE BAND

Two equal leaders - a young father and a Kashubian. Completely different inspirations - on one hand today's jazz scene of New York, on the other folk music with elements of open improvisation. A clash of two different energies that evolves into something completely new and unknown.

Bipolar Order is a Polish jazz band based in Warsaw, formed in 2018 by saxophonist Mateusz Chorążewicz and guitarist Jakub Żołubak. The group's repertoire consists of original compositions of both musicians, whereas the uniqueness results from a conception in which each instrument is treated equally, which emphasizes the unity and coherence of the music.

LABORATORIUM MUZYCZNYCH FUZZI

"Thanks to the structural and technical opposites, the album is much more dynamic and less predictable, and at the same time it is not artificial, which is so common in debuts. The whole album is stylistically well arranged and presents a high musical level throughout, especially in terms of melodic intrigue(...)."

RAFAŁ GARSZCZYŃSKI JAZZPRESS, RADIOJAZZ.FM

"Bipolar Order is an original project, it's hard to compare the band's music directly to any world famous group. Finding your own, different voice already on the debut album is a great success."

ADAM BARUCH - THE SOUNDTRACK OF MY LIFE

"(...) the album is still quite impressive considering it's a debut and taking into account the excellent compositions it presents. It should be of interest for many listeners, especially those who still have not lost hope in the possibility that Fusion can produce interesting music today. All in all well done!"

JAROSŁAW KUREK

"For all members of the quartet, the knowledge of tradition and solid artistry comes with the incredible ability to surprise the listener, create variability of plans and moods. We listen and wait with growing curiosity wondering where they will take us to in the next song; in a minute; in a moment."
